

MANNvsPEST

Serving San Diego County

PREPARATION INSTRUCTIONS FOR TERMITE LOCAL TREATMENT

(ALL TERMITICIDES WILL BE USED IN ACCORDANCE WITH MANUFACTURE'S LABEL)

HOMEOWNER AND/OR TENANT'S PREPARATION PRIOR TO TREATMENT

1. Make sure all persons and pets are away from the area to be treated.
2. Remove all items away from the area to be treated. This includes any items that would be below or underneath the treated area.
3. Make sure attic and subarea access is unlocked and accessible.
4. Make sure electricity is turned on at all times during treatment.
5. Treatment may require drilling into wall voids and or slab foundation. Holes will be patched accordingly. Paint is not included. MANNvsPEST Inc. will take careful precaution during treatment, but will not be liable for any damage to walls or slab foundation during the course of treatment.

NOTE: STATE LAW PROHIBITS TREATING WHEN AREAS LISTED ARE NOT PROPERLY PREPARED. IN ORDER FOR YOUR TREATMENT TO BE EFFECTIVE, THESE PROCEDURES MUST BE FOLLOWED COMPLETELY.

HOMEOWNER AND/OR TENANT'S FOLLOW-UP

1. All persons and pets may re-enter premises immediately after treatment has been completed.
2. Cleanup of dead termite swarmers, and termite pellets, in accessible areas is necessary. Vacuum or brush them out.
3. NOTE: You may continue to see activity for 7-10 days after service. If after this time you continue to see activity, contact manager or MANNvsPEST Inc. to schedule follow-up.
